

# *Healing and harmonizing image*

(all copies have the same qualities)

*Kabeřina v.*

This picture harmonizes one's psychological and physical condition, and at the same time replenishes the energy deficit of beings who place it on a painful part of the body, or place their hand on the image. Food and drink can be energetically healed by placing the plate or cup with their contents on the image for a mere 10 seconds.

Your hands can also heal this way with multiplying effects. Just call.
